## FOREWORD

We, the present generation, are pioneers. Perhaps not in the same way as our forbears, but pioneers we are. Yes, pioneers in an Atomic Age.

Although through the years great advances have been made toward gaining a complete understanding of the atom, this research is still in a fairly primitive state.

As time has gone by and knowledge about the atom has been gained, the definition of the atom has undergone several marked changes; for example in 1830—"An atom is basic matter, it's indivisible," and in 1903—"An atom is the smallest part of matter that can be combined," and now in 1955—"An atom consists of a nucleus and a number of electrons."

It has been only in recent years that man has realized the importance of the atom and the part it may play in the future.

In our lifetime we may be in a position where our decisions will bring about the very facts that man is so diligently seeking about the atom.

"Man's capacities have never been measured, nor are we to judge of what he can do by any precedents, so little has been tried," Henry David Thoreau.

We chose, "Pioneers in the Atomic Age" for the theme of this book, because we realize we are just that. Every subject we take during our four years in High School is preparing us for the future whether it be atomic or otherwise.

We take this means to express our sincere appreciation to the business people, the teachers, the students, and everyone else who has helped us in any way with the construction of this annual.

2 Many people think of the faculty as people who do nothing but teach class. But if you would look more closely you would find them a great group of people in close relationship with students, doing many things around school and having fun.

# ADMINISTRATION & FACULTY

KENNETH P. SCHOONOVER—Ault, Colo.; A.B., M.A., Superintendent

Dear Students:

It is only fitting that a message in our annual should contain a word of commendation to our annual staff who has worked assiduously in the preparation of this, your 1956 yearbook. I am certain that as the years go by and when you have opportunities to peruse the book, recalling pleasant memories, you will be increasingly appreciative of the fine work that has so obviously been done on this annual. So I should like to extend my heartiest congratulations to a very capable staff and to Mrs. Elsie Wingo, the annual sponsor, for a job exceedingly well done.

To the remainder of the student body I should like to say, "Thank you" for the splendid cooperation you have given the staff and myself during this year. I have enjoyed working with you immensely, and I should like to wish each of you complete success in all of your future undertakings.

One word of admonition, however. Always remember that the principle of honesty, fair play, and good sportsmanship, the basic fundamentals upon which our democratic way of living has been established, should be paramount in your association with others. This, I feel, is of extreme importance at this time since there are numerous countries in our world that are ruled in a very despotic manner by so called advocates of the better way of life, who are continually striving to eliminate our democracy. Therefore, all of us must work to show those who live under the bonds of totalitarians that our way is far superior.

Very truly yours,  
KENNETH P. SCHOONOVER  
Superintendent

don Culverwell, President.

Dear Students:

Congratulations to the annual staff for a fine job of preparing the 1956 annual. I am sure that your efforts will keep alive many happy experiences for MCHS students in the years to come.

To the graduating class of 1956 I extend my best wishes for a most successful future. The young people of today face a future which will challenge their best effort and leadership. I hope your years in MCHS have helped to make the problems which lie ahead a bit easier to solve. May all of the years ahead be pleasant ones.

Sincerely,  
DON DAVIS

Dick,

Here's wishing one of  
the cutest boys I know  
all the fun and luck in  
the world.

Don't forget all our  
fun in student council  
and everywhere else.

Be real good but  
have lots of fun. I  
sure hope your hand

gets O.K.

Love Ya'  
Phyllis

Dick,

Here's wishing the  
best of luck to a real  
neat kid. I know you will  
go along way in life. Keep  
up the good work in sports!  
Be good but have fun!  
a friend always  
Sally Terrill

Dick  
Best of luck to a  
sweet guy. I know  
you'll go far.

Remember all the  
fun we've had in student  
council. It's really been a riot.  
Have fun your next  
three years. I know you  
will.  
always.  
Charlene

Dick,

Here's wishing a real  
neat kid all the luck in  
the world. Just keep that  
good personality and sense  
of humor and you'll do alright.  
Also keep playing basketball.  
Sorry you broke your arm.  
Be good

Jayne

Dick

Best of luck to a great  
sport. I hope you're  
in most of your classes with  
you.
